THE
PRESIDENT'S
CORNER

Bill Williams

W. E. 'BILL' WILLIAMS, PRESIDENT
NATIONAL SCRIP COLLECTORS ASSOCIATION
P. O. BOX 3013
OAK RIDGE, TENNESSEE 37830

Preliminary reports are that the 1983 Spring Meeting in Bluefield, WV will be one of our most outstanding yet. Those who attended the 1981 meeting in Bluefield will remember the excellent facilities, and the record number in attendance. If you have not made your

reservations at the Sheraton Inn, be sure to tell them that you are attending the NSCA convention.

On Friday night, we again are planning to hold a group Dutch Dinner followed by a scrip auction sale. We have a few pieces for the auction, but we need 30 to 40 more lots of R-7 or better to offer. This year, rather than using a minimum bid, NSCA will be charging 20% of the selling price and giving the owner one protective bid which can be used at any time. No commission will be charged if the owner's protective bid is the high bid.

Those who have tokens for the auction sale can send them to me at the above address or bring them to the show. If you are not going to be able to attend, you should advise me of your protective bid which I will enter for you.

Another highlight of the meeting will be the presentation of the FRED LANGE OUTSTANDING MEMBER AWARD for 1983. Nominations for candidates for the award will be accepted through April 4: Send your nominations to me at the above address. Reasons for your selection are not necessary but would be helpful to the Committee.

The GORDON DODRILL MEMBERSHIP AWARD contest is still wide open !! Through member number 1019, we have welcomed 68 new members since last May. The contest standing is R. R. TIPPY in first place with four; C. H. BLAKEMAN, H. A. LEE, and C. R. JENKINS tied for second with three each; followed by R. BLANKENBECLER, C. F. COLLEY, P. JENSEN, J. SLOVER, and D. WILLIAMSON with two each. Sixteen others have one each to their credit. New member applications will be accepted for contest credit up to 10:00 a.m. on April 30. Anyone still can win who is willing to get out and look for new members !!

I am pleased to report that DON EDKINS has finished typing the first draft of Volume I of the Second Edition covering all states except West Virginia. The material has been broken down by states and sent to 38 members for their review of the rarity values and their general comments. An index which lists all of the companies in the book is being prepared, and tokens are being selected for illustrations from each state. It does not appear that we will be able to get the book through printing in time for the Spring meeting. It, however, should be ready shortly thereafter. Once Volume I goes to the printer, Don will be starting on the West Virginia volume. At this writing, we do not have any estimate of the price, but hope to have something by the Bluefield meeting.

A disturbing development has arisen recently which should be brought to your attention. During the past six months or so, several members from Texas to Virginia have been contacted by a man who has coal tokens which he claims are one of a kind from Oklahoma, Tennessee, Kentucky and Virginia. There may be other states. These tokens appear well worn and aged, but all of them are too good to be true since none of the companies are listed in Dodrill, Edkins, R. G. Dun or Bradstreet reference material. It also is believed that the seller has a quantity of each token, although only one piece is claimed and single piece prices are being asked.

(Continued on following page)

PRESIDENT'S MESSAGE (Continued)

Tokens which have been purchased, have been examined by several expert members with diverging opinions. Some say they are clever fantasies which have been artificially aged and worn.

The seller has used different names in different states. Mail has been returned from the addresses he has given, and people whose names he has used as references do not verify his credibility.

It is entirely possible that these are genuine previously unknown tokens, but the combination of circumstances and the inability to verify the companies or the credibility of the seller casts considerable doubt on their authenticity. We thought you should know !!

Any member having anything to offer in connection with these tokens is invited to make your comments known to me as soon as possible.

.....
BILL WILLIAMS TO JOIN "HAS-BEEN" RANKS.....

With the election of new officers at the Bluefield Convention, Bill Williams will join the Past President's Club along with Walter Caldwell, R. R. Tippy, and John Fliss. Bill has declined to be a candidate for re-election thus will become a member of the Board of Directors as a Past President as specified in the By Laws.

Bill has been an outstanding leader of NSCA and has certainly expended personal funds in the interest of the organization. Most of you are aware that he has traveled to many points in the coal areas in connection with NSCA and has also prepared and exhibited token displays at several coal related events including shows at Beckley and Bluefield, WV.

NSCA owes a large debt of gratitude to President Bill for his years of service !!

A new President, three Vice-Presidents and a Secretary and/or Treasurer will be elected as a part of the business meeting of NSCA at Bluefield, WV on Saturday afternoon.

All members are urged to be present for this election and are encouraged and invited to make their officer candidate names known to the Nominating Committee which is been headed by R. R. Tippy, 102½ Meadow Lane, Oak Ridge, Tenn. 37830.

.....
POCAHONTAS COALFIELD CENTENNIAL BEING OBSERVED

Starting in March of 1983, a special Coalfield Centennial is being observed in Bluefield, WV and NSCA officers have contacted the Bluefield group to have them tie in our National meeting with the many events that they plan during the next few months.

As many of you are aware, they have had minted a special \$3.00 centennial coal token and we hope to have this available for your purchase during our meeting.

It was just one hundred years ago that the first of the renown Pocahontas coal was shipped from mines in the Bluefield area and additional details on the events to be featured during this celebration will be included in the next issud of SCRIP TALK.

Make your plans now to attend the National Convention in Bluefield, West Virginia! You will be glad you did !!

TOO, HE NOTES THAT A FEW MEMBERS DID NOT RECEIVE A PAGE WITH FREE ADS IN THEIR LAST BULLETIN... THE JANITOR IS CHECKING WITH THE MAIL CLERK SO THAT WE WILL NOT RUN SHORT OF ANY PAGES AGAIN... MORE LATER AS TIME AND SPACE PERMITS..

WANT

SHOAL CREEK COAL CO. - Montgomery County - Panama, Illinois

Scriptor Mark Ballard has forwarded information on this company which for some long period of time has been listed as being from Eccles, W.Va. (Edkins WV 873). Tom Wall provided Mark with his information and Mark notes that he has only the \$1.00 bi-metal in fair shape and he notes that Walter has the only other \$1.00 token known from this company. Are there others?

Mark notes that John L. Lewis and his two brothers, Howard and Denny, worked for Shoal Creek. He notes that the information is taken from the Illinois Coal Report for 1920 and shows that the operation was later sold to Cosgrove-Meehan Coal Co. of Illinois with a Main Office in Chicago. (Ed note: My 1930 McGraw Hill Coal Mine Directory shows Clover Mine at Panama, Illinois owned by Cosgrove-Meehan). The company had 564 employees in 1920 report and 1930 indicates 450 employees in a 78" seam of coal.....

.....
PEABODY NO. 3 COAL MINE....

Edkins Catalog (Page 438) indicates for MAV 7: W.M.Lisenby/1/Peabody/No. 8
In Trade/1/Pat. Jun. 1909/
Ingle System

Scriptor Mark Ballard notes that it should be listed as Peabody No. 3 not 8. The mine is one and one-half miles North of Marion, Illinois. The hoist house and store are still standing. Scriptor Toots Boyett found the mine site about two years ago and Mark visited the site with Toots on another occasion. The store building has been remodeled and people still live in the area. Toots and Mark inquired about tokens and one resident came up with a nice 1¢ token. He had been a former storekeeper at the mine.

The 1920 Illinois Coal Report indicates that 522 men worked at the operation for an average of 163 days. They mined 494,618 tons of coal from the shaft mine that used room and pillar method of mining. Hand loaders and machines were used and mules and electric motors moved the coal. The coal seam was 8 feet thick and had to be closed down because of bad top..

.....
SEVERAL MEMBERS HAVE INQUIRED ABOUT RUNNING ADS IN SCRIP TALK. THE RATES ARE LISTED BELOW FOR YOUR INFORMATION. PRESENT NSCA RULES DO NOT PERMIT AUCTION SALE ADS HOWEVER FIXED PRICE LISTS ON YOUR TOKENS ARE ACCEPTABLE. WE NEED ADS TO HELP DEFRAY BULLETIN COSTS.....

TAMS HAVING JOURNAL PUBLICATION PROBLEMS....

Those NSCA members who are also members of the Token and Medal Society (TAMS) are aware that you have not received a TAMS JOURNAL for many months. As a member of the Board of Governors, I want to pass along the latest info that I have so that you will be aware of what is going on... Although I am not privy to all of the details, I can note that I have received letters from Scriptor Sam Ruggeri and Ed Quagliana complaining (rightly) about the delay in getting the publication and wondering why they should continue to pay dues... TAMS has a healthy treasury due to a gift many years ago of a large block of Franklin Mint stock and due to prudent investments by TAMS Treasurer Charles Ricard. Cliff Mishler of Numismatic News was responsible for many years in seeing that the TAMS publication was printed and distributed on time. In fact, I believe members of his staff also served as Editors of the Journal for many years. Due to increasing demands of his duties in connection with Numismatic News, he recently had to give up looking after TAMS. Thus, for a year or so now, the TAMS Journal has been shoved and pushed from pillar to post and problems have been encountered in getting an Editor and getting suitable arrangements made for timely publication. Unfortunately, one of the recent Presidents of TAMS was so busy with other occupational duties that he did not have the proper time to devote to TAMS and the problem of the publication was further complicated. The new President, Hal Dunn of Colorado is hard at work on the current problems and it is my opinion that the matter will be resolved shortly. You might be interested in knowing that Scriptor Paul Cunningham (also a Board member) has suggested a solution to President Dunn and I anticipate additional information shortly. I appreciate having letters from any Scriptors that belong to TAMS and will continue to bring any problems that you have to the attention of the Board of Governors. Thought you would like to know the current status as I have it !!

.....
HAVING TROUBLE MAKING RUBBINGS OF YOUR TOKENS ??? TRY THIS EASY METHOD DEVELOPED BY GORDON DODRILL AND PRINTED IN SCRIP TALK SOMETIME AGO.....

1. PLACE TOKEN DOWN WITH CIGARETTE PAPER COVERING IT. PLACE 2x2 HOLDER (WITH CELLOPHANE REMOVED) OVER TOKEN. PRESS PAPER FIRMLY INTO TOKEN WITH THUMB, AND RUB PENCIL OVER THE PAPER IN A CIRCULAR MOTION BRINGING OUT THE FIRST IMPRESSION. (A)
2. RUN THE IMPRESSION THRU THE XEROX MACHINE FOR IMPRESSION (B) AND RETOUCH WITH BLACK BALL POINT PEN AND WHITE WATER COLOR. (C)
